

Our aged care home has enhanced video telehealth capability

Your nursing agency staff are invited to attend an on-site briefing and orientation session

We invite your nursing agency staff to attend an on-site briefing and orientation session about our new Visionflex telehealth platform.

Featuring cutting-edge technology, Visionflex captures high-quality images and video, together with consistent data about patient vitals.

Using the Visionflex telehealth platform will enable improved diagnostic accuracy, earlier intervention and better health outcomes.

Book a briefing and orientation session for your nursing agency staff

To ensure that your nursing agency staff are set up to access the system and know how to use the technology, contact us to book an on-site briefing and orientation session.
